PERGOLA SERİSİ

PERGOLA SERIES

Teknik Detaylar

Pergola Tente Sistemleri ile açık havada güneş ışığının ve temiz havanın keyfini çıkarın veya yağmur altında oturun; Pergola Serisi size açık havada ekstra bir yaşam alanı sağlar.

Yeterli eğimli, oval veya düz projelendirme ile su geçirmez sadece gölge sağlamakla kalmaz aynı zamanda yağmur yada karlı havalarda kullanabilirsiniz. Arzu edilen ebatlara ve estetik isteklere bağlı olarak seçim yapabileceğiniz bir dizi ürün çözümü mevcuttur.

Sistem Özellikleri

Eğimli şekli, yağmur suyunun akıtılmasına kolaylık sağlar. Ürün bir duvara dayanarak veya bağımsız bir yapı şeklinde kullanılabilir.

Oval şekli, yağmur suyunun akıtılmasına kolaylık sağlar. Ürün bir duvara dayanarak veya bağımsız bir yapı şeklinde kullanılabilir.

Düz şekli, yağmur suyunun akıtılmasına kolaylık sağlar. Ürün bir duvara dayanarak veya bağımsız bir yapı şeklinde kullanılabilir.

Technical Details

Enjoy the sunshine and fresh air in the open air with Pergola Awning Systems or sit down in the rain; Pergola Series provides you an extra living space in the open air.

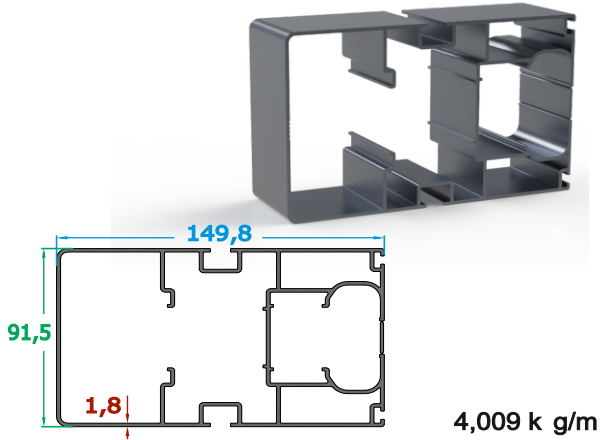

With adequate sloping, oval or flat projecting, you can not only provide waterproof shade, but also use it in rain or snowy weather. A range of product solutions are available to choose from, depending on the desired sizes and aesthetic demands.

System Features

Its curved shape makes it easy to pour rainwater. The product can be used against a wall or as a freestanding structure.

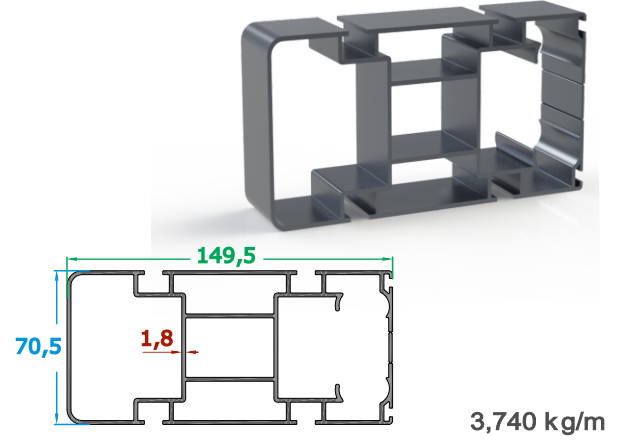

Its oval shape makes it easy to pour rainwater. The product can be used against a wall or as a freestanding structure.

Its flat shape makes it easy to pour rainwater. The product can be used against a wall or as a freestanding structure.
